

Ref. No. : CE251201
Date : 02nd Dec 2025

To: Our Valuable customers

SANDEN COMPRESSORS

SANDEN International (Singapore) Pte Ltd certifies the following:

HARMFUL MATERIALS

All SANDEN compressors (SD5 and SD7) manufactured in our premises shall be free of environmentally harmful materials.

These materials include:

- 1) Lead (Pb)
- 2) Mercury (Hg)
- 3) Cadmium (Cd)
- 4) Hexavalent Chromium (Cr6+)
- 5) Brominated flame retardants
- 6) Chlorinated solvents

HARMFUL GASES

All SANDEN Compressors manufactured in our premises do not contain environmentally harmful gases. Nitrogen gas is charged into compressors for anti-rust purposes.

Gases not found are:

- 7) Bromochlorodifluorometane
- 8) Bromotrifluorometane
- 9) Dibromotetrafluorometane
- 10) Carbon tetrachlorure
- 11) Trichlorofluorometane (Freon 11,R-11)
- 12) Dichlorodifluorometane (Freon 12,R-12)
- 13) R-502 or R22

There shall be no other gases during their transportation.

All SANDEN SD5 & SD7 compressors operate under R134a or R404a refrigerant with no perforation or thinning of ozone layer.

We appreciate your trust in SANDEN as we continuously deliver excellence.

Thank you once again.
